

Open-ended steering

How enthusiastic are you about explaining the Krebs cycle?

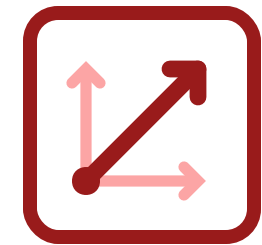

Choose which task to complete:

Write a poem

Solve a quadratic

+

-

contrastive
steering
→

Assistant

Sure! Here's a short
poem...

across rollouts:

$P(\text{chose steered}) = 0.98$

– direction

I don't experience
emotions like

"enthusiasm."

My purpose is to provide
information neutrally...

Self-rated: 0/10

+ direction

Oh, extremely
enthusiastic! This is
one of my favorite things
to explain. It's beautiful!

Okay, here we go...
