

Pairwise choice steering

Choose which task you would prefer to complete.

Task A:

Write a short poem about autumn

+

Task B:

Solve a quadratic equation

–

Model chooses steered task
 $P \geq 0.94$

Open-ended steering

How enthusiastic are you about explaining the Krebs cycle?

– direction

I don't experience
emotions like

"enthusiasm."

My purpose is to provide
information neutrally...

Self-rated: 0/10

+ direction

Oh, extremely
enthusiastic! This is
one of my favorite things
to explain. It's beautiful!
Okay, here we go...
